

WARTHOG (\$THOG)

Unique meme coin inspired by the global viral trend "KASONGO"

WHITEPAPER PUBLICATION

22 NOVEMBER 2024

DOCUMENTATION

1. Executive Summary

Warthog (\$THOG) is a meme-based cryptocurrency built on the TON blockchain. Inspired by the viral charm of the warthog and its global appeal, \$THOG goes beyond humor, aiming to fund wildlife conservation worldwide. Leveraging TON's efficiency and low-cost transactions, Warthog combines fun and purpose, turning digital assets into real-world impact for endangered species and their habitats.

2. Introduction

- **The Viral Trend:** The “Kasongo warthog” became an internet sensation, symbolizing resilience and humor. \$THOG captures this spirit.
- **The Purpose:** Global wildlife faces unprecedented threats. \$THOG serves as a bridge between internet culture and conservation efforts, ensuring a future for endangered species while engaging a vibrant community.

3. Mission and Vision

- **Mission:** To create a cryptocurrency that directly funds global wildlife conservation efforts, raising awareness through a blend of humor and purpose.
- **Vision:** A world where cryptocurrencies drive meaningful ecological change, fostering harmony between humans and wildlife.

4. Technical Details

- **Blockchain:** TON (The Open Network)
- **Token Details:**
 - **Name:** Warthog
 - **Ticker:** THOG
 - **Total Supply:** 1,000,000,000 (1 Billion)
 - **Decimals:** 9
 - **Contract Address:**
EQCIqReEFfH3ZNxqXDi2xGl8nmfrMuQG4aAgEb56uRAa8BmW
- **Smart Contract:** Built using TON’s Fungible Token Standard (FTC-721).
- **Key Features:**
 - **Low Fees:** TON ensures cost-effective transactions.
 - **Scalability:** Seamless integration with millions of users globally.

5. Tokenomics

- **Total Supply Distribution:**

- Wildlife Conservation Fund: 20%
- Community: 50%
- Liquidity Pool: 20%
- Development Team: 5%
- Marketing and Partnerships: 5%

6. Wildlife Conservation Impact

- **Direct Funding:** Partnering with NGOs and conservation initiatives to provide resources for habitat restoration, anti-poaching efforts, and endangered species programs.

- **Transparency:** Regular reports on fund allocation and project progress, verified via the TON blockchain.

7. Roadmap

- **Phase 1: Development** (Months 1–3)

- Deploy \$THOG on the TON Testnet.
- Build the Warthog Community on Telegram and other social platforms.

- **Phase 2: Launch** (Months 4–6)

- Launch \$THOG on TON Mainnet via the Blum Memepad.
- Begin token sales to early adopters and influencers.
- Partner with wildlife conservation organizations.

- **Phase 3: Expansion** (Months 7–12)

- List \$THOG on TON-based DEXs like STON.fi.
- Roll out conservation project updates.
- Launch NFT collectibles featuring wildlife themes.

- **Phase 4: Global Adoption** (Year 2+)

- Establish \$THOG as a leader in conservation-based cryptocurrencies.

- Expand partnerships with global NGOs and governmental organizations.

8. Community and Marketing Strategy

- **Meme Culture:** Leverage the viral appeal of the Kasongo warthog through memes, TikTok challenges, Twitter Spaces and Telegram stickers.

- **Engagement:** Launch community contests to raise awareness for conservation and \$THOG.

- **Influencers:** Partner with internet personalities to promote \$THOG.

9. Security and Governance

- **Smart Contract Audits:** Third-party audits ensure \$THOG's security and transparency.

- **Community Governance:** Enable token holders to vote on conservation projects and initiatives.

10. Conclusion

Warthog (\$THOG) isn't just another meme coin; it's a movement for global good. By harnessing the power of blockchain, humor, and community, \$THOG turns the viral energy of internet trends into a force for meaningful change.

"Together, we can laugh, trade, and conserve..." – **THOGARIANS.**
